The CUBORO book

The CUBORO book is very popular and has already been translated into several languages. THE BOOK was presented at the Nuremberg Toy Fair in 2023. It contains exciting building plans and many tips and tricks for all CUBORO sets.

When the long-awaited CUBORO book was presented at the Nuremberg Toy Fair 2023, it was available in German and English. Due to the great international demand for the CUBORO book, French and Japanese translations were added in the course of the year. Other languages such as Chinese and Korean are being planned.

The book is the ideal complement to the CUBORO sets. It offers tips and tricks for the optimal use of the more than 100 different CUBORO elements as well as exciting building plans for the marble runs with all CUBORO sets. The book inspires children and young people to build countless marble runs.

The book addresses also parents, grandparents and teachers who want to encourage and support children and teenagers in their development. All CUBORO fans also get an even more comprehensive insight into the history and manufacture of the wooden toy. The tricky quizzes and competitions in the book ensure that the fun never stops.

About Cuboro AG

Cuboro AG develops and produces the CUBORO marble run system. The family-owned company with its headquarters in Bern/Switzerland is managed in the second generation by Sebastian Etter, the son of the inventor Matthias Etter. The marble run system enjoys great popularity not only in Switzerland and Europe, but has been inspiring people all over the world since 1986. To this day, the CUBORO sets are manufactured in the heart of Switzerland from regional beech wood.
